"Could you please pass on my thanks to Sue for amazing course. As an EA and mum to a child with autism I took so much away with this course, not only for myself, my child and the students I work with but to share with family and teachers. It is the first course I have done that really gets people to reflect on themselves first and then use it as a reflection tool when exploring the complexities of ASD."

- Early Learning Childhood Educator

"Myself and 10 Special Needs Education Assistants (SNEAs), engaged in the PL together. I personally got goosebumps with some of the information provided. We are a mainstream school with a high number of Students with Additional Needs (SWANs).

- Primary School Teacher

Tony Attwood is well known for sharing his extensive knowledge of Asperger Syndrome. He has a private practice in Brisbane and is an adjunct Professor at Griffith University in Queensland. Tony has written many papers and two best selling books on Asperger Syndrome. He also spends a large amount of time traveling nationally and internationally to present workshops and papers. His presentations are informative and empowering.
